OFFICE OF THE—KANTOOR VAN DE

GLEN SCHOOL OF AGRICULTURE,
 GLEN, O.F.S.,
 March 23rd 1925.

R.A. Fisher, Esq.,
 Chief Statistician,
 Lawes Agricultural Trust,
 Rothamsted Experimental Station,
 HARPENDEN, England.

Dear Mr Fisher,

Many thanks for your letter dated 27th of January
 which I received a little while ago.

Your remarks on the uniformity data have been very
 valuable. I have submitted them to Dr Turpin, the author of
 the article discussed with you, and he appreciates their value.
 He has asked whether it will be possible for you to submit any
 concrete suggestions as to the planning of the experiments from
 your knowledge of the uniformity data. No further plantings
 have been made on these plots so that any suggestions submitted
 by you could be utilized in deciding on the planning of the
 experiments for lucerne and other annual crops during the coming
 season.

Yours very truly,

PRINCIPAL.
