

10th December, 1936.

Dr. E. Demandt,
Chef vand den Proefveldendienst,
Proefstation voor de Java-Suikerindustrie,
Soerabaja,
Java.

Dear Sir,

In your paper:

De resultaten der blancoproeven met 2878 poj van
oogstjaar 1931

you present in summary form the results of 203 uniformity trials with sugar cane. We are keeping at Rothamsted a catalogue of uniformity trial data which will be published shortly and are trying to make accessible to students trials of which the yields have not been published by obtaining where possible copies of the yields from the authors concerned. If you would be good enough to send me a copy of the yields of your valuable trial, this would make them available to students without further trouble to you. If you have not time to copy the yields, I would be glad to have them copied here if you would lend me a copy for a short time.

I understand that you send the copy of the yields to Dr. R.A. Fisher in 1933 and I have tried to get hold of his copy. This

was, however, unfortunately taken away by a student who was working on the data and whose address is now unknown,

Yours faithfully,

10th December, 1936.

Dr. H. Danforth,
Chief and General Director,
Federal Bureau of Investigation,
Washington, D.C.

Dear Sir,

In your paper:

The regulation of the sugar industry in 1935 and 1936

published 1937

you present in summary form the results of 205 uniformity trials with sugar cane. We are keeping at Rothamsted a catalogue of uniformity trial data which will be published shortly and are trying to make available to all those trials of which the yields have not been published by obtaining where possible copies of the yields from the authors concerned. If you would be good enough to send me a copy of the yields of your valuable trial, this would make them available to students without further trouble to you. If you have not time to copy the yields, I would be glad to have them copied here if you would lend me a copy for a short time.

I understood that you sent the copy of the yields to Dr. H.A. Fisher in 1933 and I have tried to get hold of his copy. This
