

18th February, 1937.

Dr. A. F. Swanson,
Associate Agronomist,
Fort Hays Experimental Station,
Hays, Kansas.

Dear Dr. Swanson,

Many thanks for your letter of February 6th and the reprint of the paper which contains your uniformity trial on Sorghum. The data of Mr. Savage which you kindly sent do not constitute a uniformity trial, but may prove of interest.

Yours faithfully,

THOMPSON

March.1936.

Ross C. Thompson, Esq.,
Associate horticulturist,
Division of fruit and vegetable crops and diseases,
Bureau of plant industry,
U.S. Dept. of Agric.
U.S.A.

Dear Sir,

We are keeping an index of uniformity trial data at
Rothamsted and would like to add to it the yields of the potato
uniformity trial used in your paper

"Size, shape, etc. in sweet potatoes field-plot experts."

J. Agric. Research Vol. 48. 1934. pp. 379-99.

If you can refer me to any publication containing these
figures or send me a copy of them, I shall be much obliged.

Yours faithfully,

UNITED STATES DEPARTMENT OF AGRICULTURE
BUREAU OF PLANT INDUSTRY

DIVISION OF
FRUIT AND VEGETABLE CROPS AND DISEASES

D

HORTICULTURAL FIELD STATION
BELTSVILLE, MARYLAND

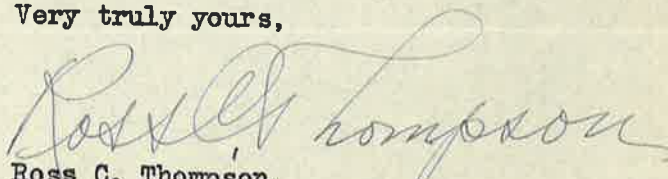

April 3, 1936.

Mr. W. G. Cochran,
Rothamsted Experimental Station,
Harpenden (Herts)
England.

Dear Mr. Cochran:

In compliance with your request of recent date I am having sent to you under separate cover two copies of the paper on field-plot technique with sweetpotatoes, which appeared in the Journal of Agricultural Research, Volume 48, 1934, pages 379 to 399. I wish to call your attention to an error in printing formula number 7 on page 392 of this publication. You will observe that a + sign was omitted between the 2 and the $1/2$ of c^2 in that portion of the formula under the square root radical.

Very truly yours,

Ross C. Thompson,
Associate Horticulturist.

27th.May.1936.

Ross C. Thompson, Esq.,
Associate Horticulturist,
U.S.Dept. Agriculture,
Bureau of Plant Industry,
Beltsville,
Maryland.

Dear Mr. Thompson,

Thanks for your letter of April 3, and for your kind offer to send me two copies of the paper on field plot technique with sweet potatoes which appeared in the Journal of Agricultural Research, Volume 48, 1934, page 379. The copies have unfortunately not yet arrived. What I would really like to have is a copy of the individual yields of the experiment; these are not given in the paper. If you could send me a copy of these yields I would be very grateful.

Yours faithfully,
