L.G. Kilby, Esq.,  
Empire Cotton Growing Corporation,  
9, Kingsmere Road,  
Wimbledon Common,  
London, S.W.19.

Dear Mr. Kilby,

Your letter of the 8th November addressed to the Secretary has been passed to me.

When Mr. Cochran wrote to you in 1936 he was engaged in compiling a catalogue of all uniformity trial data for reference purposes, and though this catalogue was completed some years ago, we are still very glad to add to it additional data that may come to hand.

I cannot see any objection to Mr. Ducker's idea of long single-ridge plots, but I suggest that if he wishes for advice on an experimental layout, we could give this more satisfactorily with a little more detail of the nature of the experiment required. It is not quite clear to me from the figures given which way the ridges are running. We should be glad to give any further assistance that may be useful to him.

Yours faithfully,

D.J. Finney
