26th May 1936.

Dear Sir,

In reply to your letter of May 23rd, I write to say that I am afraid we have not any details in this office of uniformity trials of the kind of which you would like to have data. As a matter of fact, we have specially asked members of our staff when writing their progress reports not to include statistical data of this kind in such reports, but to reserve those for any papers that they publish on the results of their work. Doubtless the data are kept at the Experiment Stations, and I would therefore suggest that you address your request to the heads of some of those Stations that are staffed wholly or partly by the Corporation. I suggest the following:-

✓ F. R. Parnell Esq.,
P.O. Box 95,
Barberton,
Transvaal,
South Africa.

Major G. S. Cameron, M.C.
C/o Department of Agriculture,
Salisbury,
Southern Rhodesia.

✓ H. C. Ducker Esq.,
Cotton Experiment Station,
P.O. Salima,
Nyasaland.

The Director of Agricultural Research,
Wad Medani,
Sudan.

H. Hutchinson Esq.,
Bremersdorp,
Swaziland.

In addition, experimental work on cotton is being carried out in other countries by the staffs of the Agricultural Departments, and you may be able to obtain useful material from the Directors of Agriculture in Uganda, Tanganyika and Nigeria.

Yours faithfully,

L. G. Kelly

Secretary.

W. G. Cochran Esq.,
Rothamsted Experimental Station,
Harpenden,
Herts.
