

12th. July, 1937.

Arjun Singh, Esq.,
Imperial Agriculturist I/C.,
Imperial Agricultural Research Institute,
New Delhi.

Dear Sir,

Many thanks for the copy you kindly sent of the
yield of the plots in your first sugar cane trial at Pusa
and for the two reprints, which I ^{glad} am to add to my collection.
I will send you a copy of the catalogue of uniformity trial
data when it is printed.

Yours faithfully,

24th April
24th April, 193

W.H. Beckett, Esq.,
Gold Coast Dept. Agriculture,
P. O. Box 299,
Accra,
Gold Coast.

See Mr. Yell's file

Dear Sir,

We are keeping an index of uniformity trial data at Rothamsted and would like to add to it the yields of the Coconut uniformity trial used in your paper

"Randomization in Field Experiments and its application on experiment stations." Bull No 20 Dept of Agric. Gold Coast.

The yields of uniformity trial data are now widely used ⁱⁿ investigations on optimum size and shape of plot, and the relative efficiency of experimental design, and we hope to make the existing data readily available to ~~the~~ students.

If you can let me have a copy of the yield, I shall be much obliged. One can, of course, obtain the yields roughly from your black and white diagram, but not exactly.

Yours faithfully

March.19

E.E. Cheesman, Esq.,
Trinidad Department of Agriculture,
West Indies.

Dear Sir,

We are keeping an index of uniformity trial data at
Rothamsted and would like to add to it the yields of the cacao
uniformity trial used in your paper

"Uniformity trials on Cacao."

Trop. Agric. (West Indies) 9. 1932. (277-88)

If you can refer me to any publication containing the
figures or send me a copy of them, I shall be much obliged.

Yours faithfully,

PRINCIPAL:
SIR GEOFFREY EVANS, C.I.E., M.A.

CABLES: "STOMATA," PORT-OF-SPAIN.
CODES: BENTLEY'S AND A.B.C. 5TH EDN.

THE IMPERIAL COLLEGE OF TROPICAL AGRICULTURE
(INCORPORATED BY ROYAL CHARTER)

TRINIDAD, B.W.

15th April

In reply please refer to No. 855.

W. G. Cochran Esq.,
Rothamsted Experimental Station,
Harpenden.

Dear Sir,

In reply to your letter of the 21st March, I have to state that the figures used in "Uniformity tri on Cacao" Trop. Agric. (Trinidad) 9. 1932 (277-88) are in the books of the Trinidad Department of Agriculture and I have no copy.

I have referred your request to Dr. F. J. Poulton who actually made the statistical calculations and who has since joined the staff of the Trinidad Department. I understand from him that he will probably be able to meet your wishes, but he will be communicating with you himself in the near future.

Yours faithfully

E. E. Green

Professor of Botany
